HITACHI VANTARA GLOBAL LEARNING

Delivery Type

- Instructor-Led Training

Course Length

- 2 Days

Course Availability

- Employees, Partners, Customers

Suggested Audience

- Administrators
- Implementers and integrators
- Pre-sales
- Architect

Required Knowledge and Skills

- Advanced Knowledge of Hitachi Virtual Storage Platform

Prerequisite Courses

None

Supplemental Courses

None

TSI3836 — Introducing Hitachi Command Control Interface

This 2 day instructor-led course provides information on the Hitachi Virtual Storage Platform Storage CLI and Command Control Interface, and the Hitachi Virtual Storage Platform REST API interface. The course covers the prerequisites, implementation, configuration, provisioning and replication techniques via command line.

Hands-on lab activities enable you to gain practical knowledge and experience using command line.

Course Objectives

Upon completion of this course, you should be able to:

- Describe RAID Manager and REST API interfaces
- Install RAID Manager software and create IN-Band Command Device
- Create HORCM config files for provisioning and replication
- Create and present LDEVs to a open systems server via command line
- Create and manage replication pairs via command line
- Create scripts to automate provisioning and replication tasks

Course Outline

Content Modules

- Overview
- Installation
- RAIDCOM
- Command Control Interface (CCI)
- Embedded CLI
- Scripting
- REST API

Learning Activities — Labs

- Install RAID Manager
- Create In-Band Command Device (CMD)
- Provisioning
- Replication
- Scripting
- REST API
