

COURSE DESCRIPTION

Working With Hitachi Ops Center TXI3932

Who Should Attend

- Architect
- Developer
- Field Engineer
- Presales
- Storage Administrator

Level

- Associate

Required Knowledge and Skills

- Basic knowledge of management software
- Basic understanding of block storage
- RAID storage systems and their basic functions
- Volume creation and management
- Pool creation and management
- Parity group creation and management

Prerequisite Courses

- None

Supplemental Courses

- Managing Hitachi Ops Center Administrator – TSI2929

Delivery Type

- Instructor-led Training (ILT)
- Virtual Instructor-led Training (vILT)

Course Length

- 5 days

Interested in what Hitachi Ops Center can do to optimize your data center?

This course provides information on how to use Hitachi Ops Center to manage the Hitachi Virtual Storage Platform family. From analytics and monitoring to automation, administration, and data protection, this course will show you how Ops Center can optimize the storage in your data center.

Additionally, hands-on lab activities enable you to gain practical experience and knowledge on administering and provisioning the infrastructure management suite.

Certification

This course also prepares you for the following Hitachi Vantara Qualified Associate qualification test:

- [Hitachi Vantara Qualified Associate – Ops Center Operations \(HQT-6751\) Exam](#)

Depending on the location and course delivery format, this closed-book, proctored qualification test may be offered and administered by the instructor at the conclusion of this course, using the [Kryterion Webassessor](#) system. It is also available online (online proctored) and at Kryterion testing centers (onsite proctored).

Course Objectives

When you complete this course, you should be able to:

- Recognize the hardware platforms supported by Hitachi Ops Center
- Perform Ops Center common services functions on the Ops Center dashboard
- Describe the storage management functions of Ops Center
- Perform the key analytics and storage management functions of the different components of Ops Center
- Explain basic maintenance procedures on Ops Center

Course Outline

Content Modules

- Hitachi Storage Systems Family
